

Specialty Trainings

Maintenance & Operation of Generators & Transfer Switches

Dates: February 28, 2018 **Locations:** Evapar Training Center **Facilities:** 3810 Concept Court, Fort Wayne, IN

Time: 9am—3:00pm local time

Course Description:

In emergency power situations generators and transfer switches are used to provide a continuous source of power for critical processes by transferring from the normal source of power to an emergency source of power in the event that the normal source voltage falls below preset limits. This course provides information on the general inspection, operation and maintenance procedures of generators and manual and automatic transfer switches.

Course Instructor: Mark Baker, Service Manager - Evapar

Cost: \$125 for members / \$155 for non-members

Contact Hours: 5 technical wastewater hours and 5 technical water hours
